

**CURRICULUM VITAE**

Updated on Jan 24, 2020

Surname      **Davtyan**      First name(s)      **Tigran**

Affiliation and official address

Rhea Pharmaceutical Armenia LLC  
Armenia, 0084, Yerevan  
Gusan Sherami St., 2 Building  
(Malatia-Sebastia adm. district)  
Republic of Armenia  
Tel.: (+374-) 91 400994, 98-55-96-29  
E-mail: tigdav@yandex.ru  
rhea.armenia@gmail.com

Present Positions:      Professor, Chief Scientist  
Rhea Pharmaceutical Armenia LLC

Home address:      Michurin str. 5, 23, 375041, Yerevan, Republic of Armenia.

Tel: +374 10 55-96-29

Date and Place of birth:      1 December, 1966, Yerevan, Armenia

Nationality:      Armenian

Citizenship:      Republic of Armenia

Passport      ARM, AH0248176, 24 OCT 2006, 009

ID №      1112660259

Marital status:      Married, has 2 children, 3 grandchild

**Education (degrees, dates, universities)**

2016

Professor. Field: Biology

2003

Doctor of Biological Sciences (ScD). Field: Molecular Biology

1993

Candidate of Biological Sciences (Ph.D); Field :Genetics and Immunology

1989-1992

Ph.D. student, Laboratory of Genetic Mechanisms of Cell Malignization And Differentiation, Institute of Cytology, St. Petersburg, Russia.

1983-1988

Yerevan State Medical University, Faculty of Pharmacy

**Specialization (specify)**

Drug Design and quality control, HIV/AIDS and clinical immunology;  
Viral infections; immunity and stress resistance;  
Molecular mechanisms and Genetic regulation of innate immune response; Autoinflammation;

**Career/Employment (*employers, positions and dates*)**

2011- 2019	Director of Analytical Laboratory of Scientific Centre of Drug and Medical Technology Experttise JSC
1999 - 2011	Head of HIV-Clinical Trail Laboratory of the ARMENICUM Research Center, Yerevan, Rep. of Armenia.
1998 - 2006	Consultant on Science, Laboratory of Immunology, The Second Clinical Hospital of the Yerevan State Medical University, Rep. of Armenia.
1998 - 2016	Senior Research Scientist, Laboratory of Neurohormones Biochemistry, H. Buniatian Institute of Biochemistry, Natl. Acad. Sci. of Armenia.
2002 2005	Teaching Assistant in the Department of Diagnostics, National Institute of Health, Ministry of Health of the Republic of Armenia
1988- 2017	Senior Researcher, Laboratory of Immunology, Institute of Epidemiology, Ministry of Health.of the Republic of Armenia
1989- 1992	Research Scientist, Laboratory of Genetic Mechanisms of Cell Malignization and Differentiation, Institute of Cytology, St. Petersburg, Russia.
1988 1989	Senior technician in the Laboratory of Molecular and Cellular Immunology, Institute of Molecular Biology, Natl. Acad. Sci. of the Rep. of Armenia.

**Molecular and Cell biology techniques employed:**

Blood separation/storage, Fluorescence activated cell sorter (FACS) analysis Magnetic cell sorting, Tissue culture and preparation of HIV stocks, Antivira and antibacterial compounds testing, ELISA for autoantibody, HIV, HCV, hormons, cytokins assays, Fusion experiments to for monoclonal antibody producing hybridomas, Western Blotting, Restriction of DNA and subsequent purification, Polymerase chain reaction (PCR), Gel electrophoresis (PAGE, SDS, Agarose),Human monoclonal antibodies, HPLC, GC.

**Training Experience**

October 2004, Yerevan, Rep. of Armenia, HIV-Workshop;  
September 2001, Yerevan, Armenia, HIV-Workshoop;  
October 2001, Sochi, Russia, Clinical immunology and allergology;  
July, 2000, Moscow, FACSCalibur Immunocytometry Systems;  
March, 2000, Mannheim, Cobas Amplicor™/Amplilink™ ;

**International Activity**

September-December, 2002, under the supervision of the “Armenicum” Joint Stocks Company, Treatment Mission of HIV/AIDS patients in Congo Democratic Republic, Kinshasa, Sub Saharan Africa.

January-February, 2005, under the supervision of the “Armenicum” Joint Stocks Company, Treatment Mission of HIV/AIDS patients in India, New Delhi.

T. Davtyan, Armenia

**Membership of Professional Societies** Armenian Society for Immunology  
Armenian Association of Biochemists, affiliated to FEBS  
Armenian Society for Pathophysiology

<b>Grants &amp; Awards</b>	2004-2006 Grant No A-1124 from the International Science and Technology Centre (ISTC)
	2005-2006 One time Planning/Development Grant No OPD- 69499 from the CIHR IRSC, Canada program
	2005-2007 Grant No ARP2-2647-YE-05 from the Civilian Research and Development Found (CRDF).
	2006 Grant 05-NS-hubio-0720-140, Armenian Science and Education Found (ANSEF)
	2007 Grant 503-NS-hubio, Armenian Science and Education Found (ANSEF)
	2008-2010 Grant No A-1580 from the International Science and Technology Centre (ISTC)
	2008-2010 Grant No A-1701 from the International Science and Technology Centre (ISTC).
	2013 " Highly Effective Scientist 2013" State committee of Science, Ministry of Education and Science.
	2015" Highly Effective Scientist 2015" State committee of Science, Ministry of Education and Science

**Languages known:** **Fluent in Armenian, Russian, English**

**Publications**

*Papers*

1. **T. K. Davtyan, B. Ch. Nisman, Yu. T. Alexanyan, T. N. Ignatova. (1991).** About of possibility of producing the human monoclonal antibody by immunization of human peripheral blood lymphocytes in vitro. **Biol. J. Armenia**, V. 44, N2, P. 115.
2. **T. K. Davtyan, B. Ch. Nisman, Yu. T. Alexanyan, T. N. Ignatova. (1991).** The action of L-leucine methyl ester on the functional activity of human peripheral blood lymphocytes in vitro. **Biol. J. Armenia**. V.44, N3, P.235.

T. Davtyan, Armenia

3. **T. K. Davtyan, G. I. Blinova, Yu. T. Alexanyan, T. N. Ignatova (1991)**. Induction of long-term proliferation of normal human lymphocytes by co-cultivation with ethyldium bromide resistant L929 lines of mouse transformed fibroblasts. **Biol. J. Armenia.** V.44, N2, P. 155.
4. **M. B. Melixetyan, T. K. Davtyan, E. V. Beryozkina, T. N. Ignatova, Yu. T. Alexanyan (1991)**. About of action of adriamycin and ethyldium bromide on the antibody production by mouse B-cell hybridomas. **Biol. J. Armenia.** V.44, N2, P.120.
5. **Yu. T. Alexanyan, T. K. Davtyan (1991)**. The problems with producing human monoclonal antibodies. **Immunologia.** N3, P. 10.
6. **T. K. Davtyan, M. B. Melixetyan, T. N. Ignatova, Yu. T. Alexanyan (1993)**. Adaptive response of B-cells to cytotoxic drugs in culture. 1. Adriamycin and ethyldium bromide stimulated synthesis and secretion of immunoglobulins by hybridomas and lymphocytes. **Tsitologiya .** V.35, N4, P.54 .
7. **T. K. Davtyan, M. B. Melixetyan, T. N. Ignatova, Yu. T. Alexanyan (1993)**. Adaptive response of B-cells to cytotoxic drugs in culture. 2. The Interactions of adriamycin and ethyldium bromide with immunoglobulin molecules. **Tsitologiya .** V. 35, N 6/7, P. 91.
8. **M. B. Melixetyan, T. K. Davtyan, T. N. Ignatova, Yu. T. Alexanyan (1993)**. Adaptive response of B-cells to cytotoxic drugs in culture. 3. Possible mechanism of adriamycin action on immunoglobulin production by mouse hybridoma cells. **Tsitologiya .** V. 35, N 6/7, P.98.
9. **T. K. Davtyan, T. B. Smirnova, Yu. T. Alexanyan, T. N. Ignatova, M. B. Melixetyan, (1993)**. The interaction of cultivated human peripheral blood lymphocytes with mouse transformed fibroblasts. **Immunologia.** N3, P.17.
